4. [] Pat Holt, Senate Foreign Relations Committee staff, called to say the Western Hemisphere Subcommittee would like to hear from the Director on Monday, 26 November 1973 at 10:00 a.m. on the present and prospective situation in Chile. He said there would undoubtedly be questions also on the events of last summer and the possible Agency role therein. He said the Director's testimony would be a followup to the recent testimony of State Department officers on the same subject. He said the hearing would be in executive session and a transcript would be made.

5. [] Talked to Senator Stuart Symington who confided he was having Andrew St. George in to his office this afternoon for a talk prior to possibly calling St. George to a formal Committee hearing on Friday. He said he had run St. George down through Seymour Hersh, and Symington wanted to be sure that we were pulling together all the information necessary to refute St. George's allegations.

6. [] Called Senator Birch Bayh to say we still had no definitive answer to his questions about the results of []

25X1

[] He said in this case we need not come over to brief him but he would like us to let him know as soon as we had a meaningful story to tell.

7. [] Received a call from Chuck Conneely, Senate Armed Services Committee staff, who said he was preparing the Committee report for our cost-of-living retirement legislation for CIARDS for Committee action tomorrow. He said he thought it was essential that they include in the report the gross figures representing the increase in the unfunded liability for each of the cost-of-living increases. (These figures are included in a classified statement on the financial impact on the legislation which we provided the Committee staff.) After we had consulted Mr. Wattles, I advised Conneely that if he and Ed Braswell, of the Committee staff, felt it was absolutely essential to put out these figures in order to facilitate action on our bill that we would not object although we ordinarily prefer not to divulge either personnel figures or financial data.
